

RoHS

Caution  
Do not use the battery pack if it is damaged, deformed, or if it has a strong odor.  
Do not use the battery pack if it is exposed to fire or high temperature.  
Do not use the battery pack if it is exposed to moisture or liquid.  
Do not use the battery pack if it is exposed to strong magnetic fields.  
Do not use the battery pack if it is exposed to strong electromagnetic waves.  
Do not use the battery pack if it is exposed to strong radio waves.  
Do not use the battery pack if it is exposed to strong infrared rays.  
Do not use the battery pack if it is exposed to strong ultraviolet rays.  
Do not use the battery pack if it is exposed to strong X-rays.  
Do not use the battery pack if it is exposed to strong gamma rays.  
Do not use the battery pack if it is exposed to strong neutron rays.  
Do not use the battery pack if it is exposed to strong cosmic rays.  
Do not use the battery pack if it is exposed to strong solar rays.  
Do not use the battery pack if it is exposed to strong cosmic background radiation.  
Do not use the battery pack if it is exposed to strong natural background radiation.  
Do not use the battery pack if it is exposed to strong artificial background radiation.  
Do not use the battery pack if it is exposed to strong ionizing radiation.  
Do not use the battery pack if it is exposed to strong non-ionizing radiation.  
Do not use the battery pack if it is exposed to strong electromagnetic interference.  
Do not use the battery pack if it is exposed to strong radio frequency interference.  
Do not use the battery pack if it is exposed to strong microwave interference.  
Do not use the battery pack if it is exposed to strong infrared interference.  
Do not use the battery pack if it is exposed to strong ultraviolet interference.  
Do not use the battery pack if it is exposed to strong X-ray interference.  
Do not use the battery pack if it is exposed to strong gamma-ray interference.  
Do not use the battery pack if it is exposed to strong neutron-ray interference.  
Do not use the battery pack if it is exposed to strong cosmic-ray interference.  
Do not use the battery pack if it is exposed to strong solar-ray interference.  
Do not use the battery pack if it is exposed to strong cosmic background radiation interference.  
Do not use the battery pack if it is exposed to strong natural background radiation interference.  
Do not use the battery pack if it is exposed to strong artificial background radiation interference.  
Do not use the battery pack if it is exposed to strong ionizing radiation interference.  
Do not use the battery pack if it is exposed to strong non-ionizing radiation interference.  
Do not use the battery pack if it is exposed to strong electromagnetic interference.  
Do not use the battery pack if it is exposed to strong radio frequency interference.  
Do not use the battery pack if it is exposed to strong microwave interference.  
Do not use the battery pack if it is exposed to strong infrared interference.  
Do not use the battery pack if it is exposed to strong ultraviolet interference.  
Do not use the battery pack if it is exposed to strong X-ray interference.  
Do not use the battery pack if it is exposed to strong gamma-ray interference.  
Do not use the battery pack if it is exposed to strong neutron-ray interference.  
Do not use the battery pack if it is exposed to strong cosmic-ray interference.  
Do not use the battery pack if it is exposed to strong solar-ray interference.

Rechargeable Li-Ion Battery Pack  
Model: K13P  
Rating: 11.1V 5200mAh (55Wh)
