

Rechargeable Li-ion Battery TYPE KM973 1735
Rating: 11.1V Capacity: 4400mAh

CAUTION
Do not short-circuit the battery terminals.

WARNING
Do not use the battery in a fire or near an open flame.
Do not use the battery in a confined space.
Do not use the battery in a high temperature environment.
Do not use the battery in a high humidity environment.
Do not use the battery in a high pressure environment.
Do not use the battery in a high vibration environment.
Do not use the battery in a high magnetic field environment.
Do not use the battery in a high electromagnetic interference environment.
Do not use the battery in a high radio frequency environment.
Do not use the battery in a high power environment.
Do not use the battery in a high speed environment.
Do not use the battery in a high acceleration environment.
Do not use the battery in a high deceleration environment.
Do not use the battery in a high shock environment.
Do not use the battery in a high impact environment.
Do not use the battery in a high drop environment.
Do not use the battery in a high fall environment.
Do not use the battery in a high crush environment.
Do not use the battery in a high puncture environment.
Do not use the battery in a high penetration environment.
Do not use the battery in a high laceration environment.
Do not use the battery in a high abrasion environment.
Do not use the battery in a high friction environment.
Do not use the battery in a high heat environment.
Do not use the battery in a high cold environment.
Do not use the battery in a high humidity environment.
Do not use the battery in a high pressure environment.
Do not use the battery in a high vibration environment.
Do not use the battery in a high magnetic field environment.
Do not use the battery in a high electromagnetic interference environment.
Do not use the battery in a high radio frequency environment.
Do not use the battery in a high power environment.
Do not use the battery in a high speed environment.
Do not use the battery in a high acceleration environment.
Do not use the battery in a high deceleration environment.
Do not use the battery in a high shock environment.
Do not use the battery in a high impact environment.
Do not use the battery in a high drop environment.
Do not use the battery in a high fall environment.
Do not use the battery in a high crush environment.
Do not use the battery in a high puncture environment.
Do not use the battery in a high penetration environment.
Do not use the battery in a high laceration environment.
Do not use the battery in a high abrasion environment.
Do not use the battery in a high friction environment.
Do not use the battery in a high heat environment.
Do not use the battery in a high cold environment.
