

CAUTION
Do not short-circuit
Do not expose to fire
Do not disassemble

Rechargeable Li-ion Battery TYPE KM973 1735
Rating: 11.1V Capacity: 4400mAh

Do not short-circuit
Do not expose to fire
Do not disassemble
Do not use in high temperature
Do not use in high humidity
Do not use in high pressure
Do not use in high vibration
Do not use in high shock
Do not use in high magnetic field
Do not use in high electromagnetic interference
Do not use in high radio frequency
Do not use in high static electricity
Do not use in high magnetic flux density
Do not use in high magnetic field strength
Do not use in high magnetic field intensity
Do not use in high magnetic field density
Do not use in high magnetic field flux
Do not use in high magnetic field strength
Do not use in high magnetic field intensity
Do not use in high magnetic field density
Do not use in high magnetic field flux
