SAFETY INFORMATION
This battery is designed for use in HP laptops. It is not intended for use in other devices.
Do not use the battery if it is damaged, swollen, or leaking.
Do not use the battery if it is exposed to fire or high temperatures.
Do not use the battery if it is exposed to moisture or liquids.
Do not use the battery if it is exposed to strong magnetic fields.
Do not use the battery if it is exposed to strong electromagnetic interference.
Do not use the battery if it is exposed to strong radio frequency interference.
Do not use the battery if it is exposed to strong static electricity.
Do not use the battery if it is exposed to strong vibrations.
Do not use the battery if it is exposed to strong shocks.
Do not use the battery if it is exposed to strong impacts.
Do not use the battery if it is exposed to strong pressure.
Do not use the battery if it is exposed to strong tension.
Do not use the battery if it is exposed to strong bending.
Do not use the battery if it is exposed to strong twisting.
Do not use the battery if it is exposed to strong stretching.
Do not use the battery if it is exposed to strong compression.
Do not use the battery if it is exposed to strong expansion.
Do not use the battery if it is exposed to strong contraction.
Do not use the battery if it is exposed to strong deformation.
Do not use the battery if it is exposed to strong distortion.
Do not use the battery if it is exposed to strong warping.
Do not use the battery if it is exposed to strong buckling.
Do not use the battery if it is exposed to strong wrinkling.
Do not use the battery if it is exposed to strong creasing.
Do not use the battery if it is exposed to strong folding.
Do not use the battery if it is exposed to strong tearing.
Do not use the battery if it is exposed to strong puncturing.
Do not use the battery if it is exposed to strong cutting.
Do not use the battery if it is exposed to strong crushing.
Do not use the battery if it is exposed to strong grinding.
Do not use the battery if it is exposed to strong drilling.
Do not use the battery if it is exposed to strong sanding.
Do not use the battery if it is exposed to strong polishing.
Do not use the battery if it is exposed to strong buffing.
Do not use the battery if it is exposed to strong painting.
Do not use the battery if it is exposed to strong staining.
Do not use the battery if it is exposed to strong discoloring.
Do not use the battery if it is exposed to strong fading.
Do not use the battery if it is exposed to strong fading.
Do not use the battery if it is exposed to strong fading.
