

CAUTION
Do not short-circuit the battery terminals.
Do not disassemble, crush, pierce, or heat the battery.
Do not expose the battery to fire or high temperatures.
Do not use the battery if it is damaged or swollen.

Rechargeable Li-ion Battery TYPE KM973 1735
Rating: 11.1V Capacity: 4400mAh

WARNING
Do not use the battery if it is damaged or swollen.
Do not use the battery if it is exposed to fire or high temperatures.
Do not use the battery if it is exposed to moisture or liquids.
Do not use the battery if it is exposed to strong magnetic fields.
Do not use the battery if it is exposed to strong electromagnetic interference.
Do not use the battery if it is exposed to strong radio frequency interference.
Do not use the battery if it is exposed to strong static electricity.
Do not use the battery if it is exposed to strong lightning strikes.
Do not use the battery if it is exposed to strong thunderstorms.
Do not use the battery if it is exposed to strong hurricanes.
Do not use the battery if it is exposed to strong earthquakes.
Do not use the battery if it is exposed to strong tsunamis.
Do not use the battery if it is exposed to strong volcanic eruptions.
Do not use the battery if it is exposed to strong solar flares.
Do not use the battery if it is exposed to strong cosmic rays.
Do not use the battery if it is exposed to strong gamma rays.
Do not use the battery if it is exposed to strong X-rays.
Do not use the battery if it is exposed to strong ultraviolet rays.
Do not use the battery if it is exposed to strong infrared rays.
Do not use the battery if it is exposed to strong radio waves.
Do not use the battery if it is exposed to strong microwaves.
Do not use the battery if it is exposed to strong sound waves.
Do not use the battery if it is exposed to strong light waves.
Do not use the battery if it is exposed to strong heat waves.
Do not use the battery if it is exposed to strong cold waves.
Do not use the battery if it is exposed to strong wind waves.
Do not use the battery if it is exposed to strong rain waves.
Do not use the battery if it is exposed to strong snow waves.
Do not use the battery if it is exposed to strong ice waves.
Do not use the battery if it is exposed to strong fog waves.
Do not use the battery if it is exposed to strong mist waves.
Do not use the battery if it is exposed to strong dew waves.
Do not use the battery if it is exposed to strong frost waves.
Do not use the battery if it is exposed to strong hail waves.
Do not use the battery if it is exposed to strong sleet waves.
Do not use the battery if it is exposed to strong snowflakes waves.
Do not use the battery if it is exposed to strong raindrops waves.
Do not use the battery if it is exposed to strong snowflakes waves.
Do not use the battery if it is exposed to strong ice crystals waves.
Do not use the battery if it is exposed to strong dust waves.
Do not use the battery if it is exposed to strong dirt waves.
Do not use the battery if it is exposed to strong sand waves.
Do not use the battery if it is exposed to strong gravel waves.
Do not use the battery if it is exposed to strong stones waves.
Do not use the battery if it is exposed to strong pebbles waves.
Do not use the battery if it is exposed to strong rocks waves.
Do not use the battery if it is exposed to strong boulders waves.
Do not use the battery if it is exposed to strong debris waves.
Do not use the battery if it is exposed to strong trash waves.
Do not use the battery if it is exposed to strong litter waves.
Do not use the battery if it is exposed to strong waste waves.
Do not use the battery if it is exposed to strong pollution waves.
Do not use the battery if it is exposed to strong contaminants waves.
Do not use the battery if it is exposed to strong toxins waves.
Do not use the battery if it is exposed to strong carcinogens waves.
Do not use the battery if it is exposed to strong mutagens waves.
Do not use the battery if it is exposed to strong teratogens waves.
Do not use the battery if it is exposed to strong allergens waves.
Do not use the battery if it is exposed to strong irritants waves.
Do not use the battery if it is exposed to strong corrosives waves.
Do not use the battery if it is exposed to strong acids waves.
Do not use the battery if it is exposed to strong bases waves.
Do not use the battery if it is exposed to strong salts waves.
Do not use the battery if it is exposed to strong metals waves.
Do not use the battery if it is exposed to strong non-metals waves.
Do not use the battery if it is exposed to strong organic waves.
Do not use the battery if it is exposed to strong inorganic waves.
Do not use the battery if it is exposed to strong living waves.
Do not use the battery if it is exposed to strong non-living waves.
Do not use the battery if it is exposed to strong matter waves.
Do not use the battery if it is exposed to strong energy waves.
Do not use the battery if it is exposed to strong information waves.
Do not use the battery if it is exposed to strong consciousness waves.
Do not use the battery if it is exposed to strong spirit waves.
Do not use the battery if it is exposed to strong soul waves.
Do not use the battery if it is exposed to strong mind waves.
Do not use the battery if it is exposed to strong heart waves.
Do not use the battery if it is exposed to strong brain waves.
Do not use the battery if it is exposed to strong body waves.
Do not use the battery if it is exposed to strong nature waves.
Do not use the battery if it is exposed to strong universe waves.
Do not use the battery if it is exposed to strong everything waves.
